

The organizer of Rail+Metro announced that the Rail+Metro Asia Trade Show will be held in Jakarta, Indonesia, in October 2023.

Date: 19th -21st, October 2023

Location: Indonesia International EXPO

In 2023, China and ASEAN will celebrate the 20th anniversary of their strategic cooperative partnership, coinciding with the inauguration of the Jakarta-Bandung High-Speed Railway, the first high-speed railway in ASEAN countries. Against this backdrop, the **2023 Asia International Summit and Exhibition on Railway and Urban Rail Transit** will take place in **Jakarta, Indonesia**, from **October 19th to 21st, 2023**. This event is organized by the Indonesian Ministry of Transport, Indonesian Ministry of Industry, Council for the Promotion of International Trade Shanghai, supported by the Indonesian Intelligent Transport System Association (ITS Indonesia), and the China Local Railway Association.

The summit aims to gather more than 300 top industry players from various sectors of the railway and urban rail transit industry, including industry operators, technical service providers, equipment suppliers, engineering contractors, research institutions, associations, colleges, as well as professionals in legal, insurance, auditing, certification, and consulting fields, both from domestic and overseas. The event will be aimed at ASEAN countries, where the rail transit sector is rapidly developing, such as Indonesia, Thailand, Malaysia, Vietnam, Philippines, and others. Additionally, the summit will facilitate in-depth discussions and communication on topics such as smart transportation systems, standardization establishment, regional limitations, project management, and talent training in international project cooperation related to rail transportation in ASEAN countries.

Event Highlights:

Future Planning of Rail Transit:

This event serves as a distinguished platform that connects professionals in the rail transportation sector with suppliers at all levels in ASEAN countries. It focuses on showcasing recent developments and future planning in rail transportation within the ASEAN region, fostering collaboration and knowledge-sharing among industry experts.

Explore Cooperation Opportunities:

Gain insights into the development plans of rail transit projects in ASEAN countries such as Indonesia, Thailand, Malaysia, Vietnam, and the Philippines. Discover future opportunities for international cooperation in this promising field.

One-to-One Business Matchmaking Meetings:

Participate in face-to-face business matchmaking meetings with targeted clients during the trade show, facilitating meaningful connections and potential partnerships.

Exhibition:

Maximize your experience at the exhibition by taking advantage of the comprehensive range of professional services available. Explore cutting-edge solutions and immerse yourself in the personalized displays showcasing the latest advancements in international railway and urban rail transportation technology.

Exhibit Scope:

Special Zone for Rolling Stock and Locomotive Accessories

Planning and Design

Infrastructure construction and supporting facility

Communication Signal and Information Technology Zone

Station facilities and operation maintenance zone

Railway investment and rail operation unit's zone

Smart Railway and Urban Rail

Power supply, electrical and engineering equipment, and facilities

Railway construction achievements, cultural & creative products, and membership exhibition zone

Rail Transit Project Roadshow:

Experience firsthand the remarkable progress of more than 10 ASEAN country's railway and urban rail transit projects, offering valuable insights into the latest international cooperation opportunities within this dynamic industry.

Keynote Speeches:

More than 30 distinguished keynote speeches will encompass a wide range of topics, including ASEAN railway and urban rail transit policies, cross-border investment and financing avenues, cutting-edge technological innovations, and insights into intelligent operation and maintenance practices. These speeches are designed to foster fruitful discussions and facilitate successful international project cooperation within the fiercely competitive global market.

Cocktail Dinner (by Invitation):

On the inaugural day of Rail+Metro Asia, a prestigious welcome dinner and cocktail party will be hosted. Esteemed speakers and distinguished guests will have an extraordinary opportunity to engage with Indonesian dignitaries, revered luminaries from the global railway and urban rail transit industry, as well as distinguished business leaders, fostering invaluable networking and forging lasting connections.

These event highlights offer a comprehensive overview of the opportunities available at the summit. If you have any further questions, feel free to let us know!

Speakers:

Speakers:

- Government departments
- Railway groups
- Industry associations
- Railway construction and operation companies
- Railway engineering contracting companies
- Rolling stock manufacturers and integrators

Participating Guests:

- Engineering design, consulting, construction, and supervision companies
- Mechanical equipment providers
- Locomotive and vehicle parts dealers
- Communication and signal integrators
- System integrator
- Electrification product supplier
- Railway low-voltage products provider
- Operation management software company
- AFC integrators and accessories suppliers
- Security products suppliers
- Coating and specialty chemical companies
- Steel and aluminum suppliers

Summit Forum Topic Program**October 19th (morning)****Opening Ceremony & Main Forum (Market, Policy, Regulation)
Infrastructure Construction**

9:30am-10:00 am	<p>Moderator : Management Board Member / PT Kereta Api Indonesia (Persero)</p> <p>Guest Speeches : Leadership from the Ministry of Transportation of Indonesia Leadership from the Ministry of Transportation of Malaysia Academician of the Chinese Academy of Engineering China Council for the Promotion of International Trade, Representative Office in Indonesia</p>
------------------------	--

10:00am-10:20am	<p>Session 1: Opportunities and Challenges</p> <p>Opportunities and Challenges in Cross-border Cooperation in National Railways and Urban Rail Transit</p> <p>China Railway International Co., Ltd., / Beijing Yawan HSR Co. Ltd.</p>
10:20am-10:40am	<p>Session 2: Collaboration and Development</p> <p>Rail Industry Development Strategy and Cooperation Prospects of in Philippines</p> <p>International Cooperation Division / Philippines Department of Transportation</p>
10:40am-11:00am	<p>Session 3: Investment and Financing</p> <p>Development Strategies for Rail Transit Investment and Financing from a Global Perspective</p> <p>Asian Infrastructure Investment Bank (AIIB)</p>
11:00am-11:20am	Tea Break
11:20am-11:40am	<p>Session 4: Equipment Manufacturing</p> <p>Indonesian Rail Vehicle Manufacturing Supporting ASEAN Connectivity</p> <p>Group PT Industri Kereta Api (Persero)</p>
11:40am-12:00am	<p>Session 5: Case Study</p> <p>Discussion about Railway International Cooperation and Railway Infrastructure Connectivity and Intercommunication using the example of the China-Laos Railway project</p> <p>Dr. Bounta ONNAVONG / Director General, Department of Transport/ Ministry of Public Works and Transport, Lao PDR</p>
12:00am-13:30am	Lunch & Networking Time
October 19th (Afternoon)	
<p>Equipment and Safety</p> <p>Operational Safety and Emergency Management</p> <p>Smart Transportation</p>	
13:30pm-13:50pm	<p>Session 6: Development Planning</p> <p>Development Planning for the Mass Rapid Transit in Jakarta</p> <p>MRT Jakarta</p>

<p>13:50pm-14:10pm</p>	<p>Session 7: Risk Management & Operation Risk Management and Operation Maintenance for Metro Engineering Projects MRT Jakarta</p>
<p>14:10pm-14:30pm</p>	<p>Session 8: Design Standards Application of "Chinese Standards" in the Jakarta-Bandung High-Speed Railway Chief Designer of the Jakarta-Bandung High-Speed Railway Project / China Railway Design Corporation</p>
<p>14:30pm-14:50pm</p>	<p>Session 9: Case Study Jakarta-Bandung High-Speed Railway - A New Model of Mutually Beneficial Cooperation Indonesia-China High-Speed Railway Company (KCIC)</p>
<p>15:10pm-15:30pm</p>	<p>Coffee Break & Networking</p>
<p>15:30pm-15:50pm</p>	<p>Session 10: Digital Transformation Trends in Intelligent Railway and Urban Rail Transportation ITS Indonesia</p>
<p>15:50pm-16:10pm</p>	<p>Session 11: Engineering Equipment Independent Innovation and Intelligent Empowerment of High-End Equipment for Underground Engineering China Railway Construction Heavy Industry Corporation Limited</p>
<p>16:10pm-16:30pm</p>	<p>Session 12: Engineering Monitoring Key Technology Research and Application of Comprehensive Monitoring for Operation of Urban Rail Transportation Infrastructure China Railway Siyuan Survey and Design Group</p>
<p>16:30pm-16:50pm</p>	<p>Session 13: Tunnels and underground spaces Current Status, Challenges and Countermeasures for the Development of Tunneling Technology in Asia Arnold Dix / Chairman / International Tunneling and Underground Space Association (ITA)</p>

<p>16:50pm-17:10pm</p>	<p>Session 14: Urban Development Rail + Property Mode: Sustainable Urban Development MTR Corporation Limited</p>
<p>18:00pm-20:00pm</p>	<p>Welcome Dinner & Cocktail Party</p>
